

# Sri Lanka Army – Information Technology Division

## Enhanced IT Security Policies

### 2. Password & Authentication Policy

- Minimum password length: 12 characters.
- Must include uppercase, lowercase, number, and special character.
- Passwords expire every 90 days.
- Multi-Factor Authentication (MFA) is mandatory for admin accounts.
- Password reuse is prohibited for at least 5 previous passwords.
- Default passwords must be changed immediately upon first login.

### 3. Data Classification & Handling Policy

- Documents classified as: Confidential, Restricted, Public.
- Confidential data must be encrypted in storage and transit.
- No sharing of classified information via personal devices.
- Physical copies must be locked securely.
- Confidential data must not be stored in unauthorized cloud services.
- Access to classified data is based on the principle of least privilege.

#### 4. Email & Communication Security Policy

- Official communication must use Army-issued email accounts.
- Phishing emails must be reported immediately via the Incident Portal.
- No sharing of sensitive data via unsecured channels (e.g., WhatsApp).
- Attachments must be scanned before opening.
- Auto-forwarding of Army emails to personal accounts is prohibited.

#### 5. Device & Endpoint Security Policy

- All endpoints must have antivirus and firewall enabled.
- USB ports disabled unless explicitly approved.
- Mobile devices must have PIN/biometric lock.
- Lost or stolen devices must be reported within 24 hours.
- Operating system and applications must be updated regularly.
- Only approved software may be installed on Army devices.

## 6. Incident Response Policy

- All security incidents must be reported within 2 hours.
- Incident Response Team will investigate and escalate if required.
- Employees must cooperate with investigations.
- Incident response drills must be conducted twice a year.
- Evidence related to incidents must be preserved securely.

## 7. Remote Access & VPN Policy

- Remote access allowed only via Army-approved VPN.
- No connecting to public Wi-Fi without VPN.
- Idle sessions must auto-logout after 10 minutes.
- Remote access is restricted to authorized personnel only.
- Multi-Factor Authentication must be enabled for VPN connections.

## 8. Policy Acknowledgement Requirement

- Employees must acknowledge each new/updated policy in the Sentinel app.
- Non-acknowledgment may result in restricted system access.
- Annual refresher training is mandatory for all employees.
- Policy updates will be communicated via official channels.

## 9. Physical Security Policy

- Server rooms must remain locked and accessible only to authorized staff.
- Visitors must be escorted at all times in restricted IT areas.
- Security cameras must be operational in all data centers.
- All devices leaving Army premises must have prior approval.

## 10. Backup & Recovery Policy

- Critical systems must be backed up daily.
- Backups must be encrypted and stored offsite.
- Backup restoration testing must occur quarterly.
- Data recovery procedures must be documented and accessible.
